We think the world is at a turning point *and* we can make a difference

At the Earth Trust we believe that the best way to look after the places we love is to change the way we live.

Our work is all about encouraging people to make these changes: changes in how they feel, think, and act towards the environment.

With beautiful countryside and a packed activities calendar, we can help you connect with the natural world, learn about sustainable living and have fun while you're at it.

Supporting people...

Supporting nature

Our work isn't just about supporting nature; it's about supporting people - whatever their abilities or background.

"I've never had a relationship with nature and today I'm feeling that there has been something missing in my life."

"Today I managed to see myself as an animal rather than a statistic. I reconnected with the past and I realised there is room for ambition, there is room for dreams, there is room for inspiration."

Hear from the Ground* participants

"Being offered a tenancy by the Earth Trust has given us a wonderful chance to run our own sheep business - a life-long ambition."

Camilla and Roly, Farm Step Business

* Hear from the Ground was a conversation with a group of 16 years olds from Oxford who had never previously visited the reserve.
